

I am Virgin Mary.  
I have come to say good-bye to those who watch us.  
I would like to help you to find yourselves.

This film was made for us to try and open your eyes, to try and make you understand that this world is not about what you are experiencing now.

In this world you must not only experience what is going on around you, but must also look a little bit further.

You must look further and think, 'in my earthly life not what I am collecting and sharking up is important, but the love of my heart and whether I can experience myself and the others purely.'

In your earthly world immense lacks of energy have been unleashed and now we would like you to put these lacks of energy right in your heads and would like these lacks of energy to be transformed into energy and thereby create the possibility for you to be part of a new world.

We do not promise you anything. We say that the process has been started.

The energies have been started, not now, but in the coming weeks and months we are going to emit energy more and more and in the coming year even stronger energy is going to be emitted to you.

Enormous sorrows and pains are going enter your lives in which you must in fact experience your purification processes.

Those whom have already been targeted by the energy, can live in happiness as early as the coming year, but very few chosen people are the ones who can experience it.

But let us ask also you to have perseverance...

But I would also like to tell you that the energy already started in you is irreversible.

I would also like you to know that these energies are going to start enormous changes in your lives and evoke immense emotions in you.

They are going to work enormous forces around you and you are going to be able to absorb vast universal energies.

You need this universal energy to appear in your earthly world.

You need this universal energy to surround the earthly world and thereby the island of peace and harmony be created.

Such a new world could be created thereby in which everybody can live in happiness and harmony.

But it is not going to happen here, but in an immense spiritual world far from your earthly world where you basically continue your lives so far but in another form.

This is what in fact gives you the hope of a new world.

But this is what may make you sad since in your earthly world the lack of energy has already been created about which you have not even known since you have been living in it.

You did not feel it because you were part of it and therefore you were unable to change it.

We have tried to help you but could not pull out pains and lacks of energy with such force by which this earthly world could be changed.

Now is the time for you to help yourselves, help us and help create the world in which you shall be happy, honest and pure. Now I am asking you to face yourselves and see what you are.

We are going to do nothing else but stand by you and help you and we are going to do nothing else but give strength to you to complete this.

Do not be afraid of the changes in your lives, do not be afraid that you would have to live in another way than before since all these energies serve your spirits to develop.

All these help you reach a higher love frequency.

I can only say about these changes that you will have to experience them.

I can only tell you to be strong and try to be persistent since the end of the change is not dependent on you.

It is how you experience it is going to depend on you only.

We have started the change.

So from now on, this way or another, change is inevitably going to occur if you have not lived as you should have so far, and you have not been able to be honest and pure to yourself, and not only in this life but also in your former lives.

Do not be afraid even if you wonder why you must experience the things you encountered in your former lives now again and why you have to pay for it now, in this life. But we say to you, this is the only way for us to purify you, and this is the only way you can start along the path of purification.

Mary
