

God's message

Our aim is to create the harmony of the earthly world. We have been carried away by the energies we live in. It is an interminable process that has started. Such an energetic change has incalculable consequences.

We love the Earth.

The sunlight, the chirping of the birds, the warmth of the fire, the harmony in nature and the soft and silken touch of morning dew.

What you have been and what you have wanted to become. We did not know that you were able to generate such a lack of energy in yourselves and in others.

We had faith and believed that in what we had once created light and love would live further and would be able to endure getting born as a human being and live on.

We fear for You and the planet we have created, the light we have given, and the faith in which we exist.

We did not want to start this change but you must experience yourselves so that you would be able to proceed to a higher level of development.

I have asked the universal world, derived from my divine force, to help You, and we are now trying to show You the way, and tell you in what danger everything that used to be embraced by happiness, light and love is.

I can only help this way now, and tell you what enormous task we are faced with, and reassure you that love is the basis of creating the universe and this love I have given You is also alive in you.

This love must lead you on.

We have received nothing for free, and we have received nothing without sacrifices, still the time has come for you not to become sacrifices at last, but to discover the seed of your godly perfection in yourselves.

You exist and live with us, and the world that surrounds you exists and lives with us.

We shall get merged into you because we must help you through your earthly energies this time, and thereby we are helping ourselves too since that is how we shall be able to experience everything You exist and have existed in for so many lives.

You must see the beauty in yourselves, you must see all that you have so far been unable to see in yourselves, and believe that you have in fact been born to be good and that are able to love
